

# Pathway Program

Washington's Labor & Industries Retro program is a proven tool to help lower workers' comp insurance premiums and earn lucrative refunds.

Joining a Retro group requires a focus on safety and claims management best practices to ensure the success of all members. There are occasions when an evaluation period is necessary to confirm a company is ready to successfully participate in a Retro group.

Approach Management Services has developed a Pathway Program to help employers implement or strengthen safety and claims management operations.

- ✓ Initial evaluation and recommended actions
- ✓ Resources provided to achieve goals
- ✓ Regular communication with claims manager
- ✓ Safety visits
- ✓ Progress check-ins
- ✓ Invitation to join the group!

**Pathway connects employers  
to a professional team who are invested in YOUR success.**
