

Workers' Compensation Claims Management Solution

Approach Management Services provides employers participating in Washington's State Fund system with a comprehensive workers' compensation risk management solution for organizations that are not currently participating in the Retrospective Rating Program. Our services are designed to help companies improve their safety operations and reduce workers' compensation insurance premiums.

Approach is the employer's advocate working directly with L&I to achieve favorable outcomes. The expertise our team brings to the table along with a trusted network of external resources is invaluable to closing claims with the least amount of cost.

Approach's priority is to ensure our clients have the safety resources to prevent accidents before they occur, and a strong return-to-work process to get injured workers back-to-work. With low fee-for-service pricing and personalized service, hiring Approach to be your workers' comp management partner is a great choice to lower risk and maximize profitability. We invite you to schedule some time to find out more about how Approach can assist you.

Delivering Results for Washington Employers

Your dedicated Workers' Comp Analyst will go to work as soon as a claim is reported, spotting red flags quickly and building a strategy to keep the claim moving forward.
